DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 09/16/03. The submission is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement is being considered by the examiner.

Allowable Subject Matter

2. Claims 1-34 allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art disclose some claimed limitations.

For example, Chou (U.S. Patent No. 6,309,580) discloses the coated substrates are particularly good for a lithographic method and apparatus for creating ultra-fine patterns in a thin film coated on a substrates.

Chou (U.S. Patent No. 5,772,905) discloses the protruding feature in the mold creates a recess of the thin film.

Bailey et al. (U.S. Patent No. 6,696,220) disclose methods of forming and using the templates, and a template holder device. An imprint lithography template may include a body with a plurality of recesses on a surface of the body.

For claims 1 and 18, the prior art does not teach singularly or in combination an in-situ mold deformation monitoring method and apparatus comprising:

recording a reference pattern in the database before imprinting, the reference pattern being obtained by using the signal source to issue signals to the monitoring marks, and using the monitoring device to receive interference pattern reflected by the monitoring marks, the interference pattern then being transformed into input signal to computers and recorded as the reference pattern in the database; detecting a plurality of interference patterns during a complete imprinting step, transforming the interference patterns into input signals to computers, and recorded in the database; comparing the interference patterns recorded pattern record in recoding a reference pattern step; and issuing controlling signals base on the result of the comparison step.

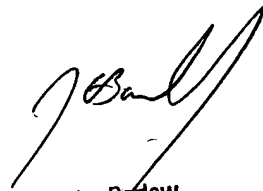

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
